

# Eliminate the worry of dispensing contaminated CNG

Find Parker filters at:  
COMOSO - Controlled Motion Solutions  
Santa Ana, CA  
Visit [www.comoso.com](http://www.comoso.com) or  
e-mail [rblackburn@comoso.com](mailto:rblackburn@comoso.com)  
1-800-696-6165

Contaminants in natural gas can foul compressors, cause early failure of CNG dispensing equipment and eventually will foul vehicle fuel injectors. These upsets in the system and on-board cause downtime and costly repairs. Use Parker filters to remove those contaminants and together, we can provide clean burning compressed natural gas.
