

Universal Series Medium Range PVC Enclosures ***NEMA 12 and 4X***

The Universal Series of medium sized enclosures brings the benefits of engineered thermoplastic material selection to a size range of enclosures never before available.

Ranging in standard dimensions from **18"x16"x10"** to **60"x36"x16"**, these enclosures give you the opportunity to use enclosures that are lighter, non-corrosive, easy to machine, and inherently safer than their metal or FRP equivalents.

Features & Benefits:

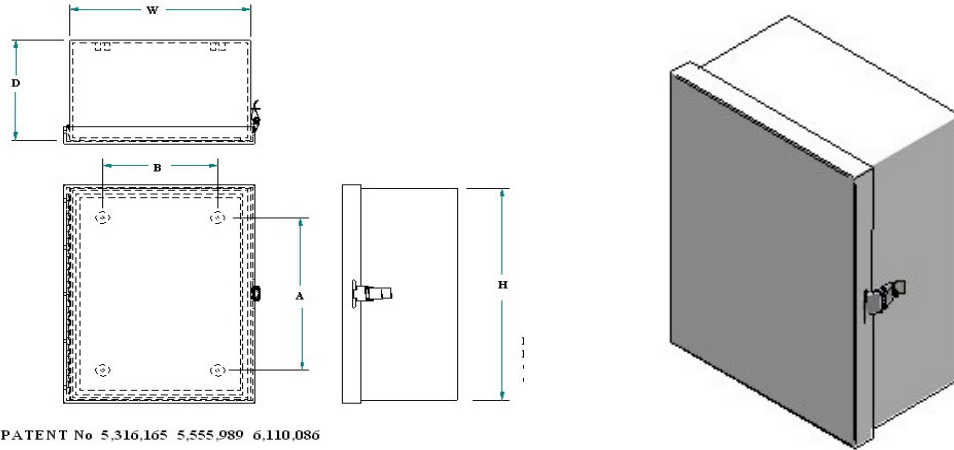

- Type II PVC Sheet construction is light, easy to machine, extremely impact resistant
- Attach PVC Fittings with standard solvent cement
- Thru-Door Latching and other Latching Options Available
- Easy to install subpanels with internal mounting panel threaded bosses
- Full stainless steel piano hinge for sturdy and durable door opening
- Flat walls and covers make installation easy and straight
- PVC Sheet material is UV resistant for outdoor use, V-0 Flame Rated
- Available in medium grey or alabaster colors as standard
- Independantly orientable mounting feet ("Clevermounts") ease installation
- Closed cell neoprene gasket is durable, seals tight, and easy to replace if necessary
- Modifications services (machining, screen printing) are available
- Note that all enclosures ship with mounting feet, base, and cover
- Available in "Shoebox" cover (Series S) and Flush cover (Series F) constructions

Applications:

- Industrial Control Panels
- Pump controls/Water Treatment
- Instrumentation and Contols
- Solar/Wind/Geothermal Controls and Systems
- RF Controls/ Wireless Systems
- Irrigation and Water Control
- Marine and High-Corrosion Applications
- Applications where weight reduction is important

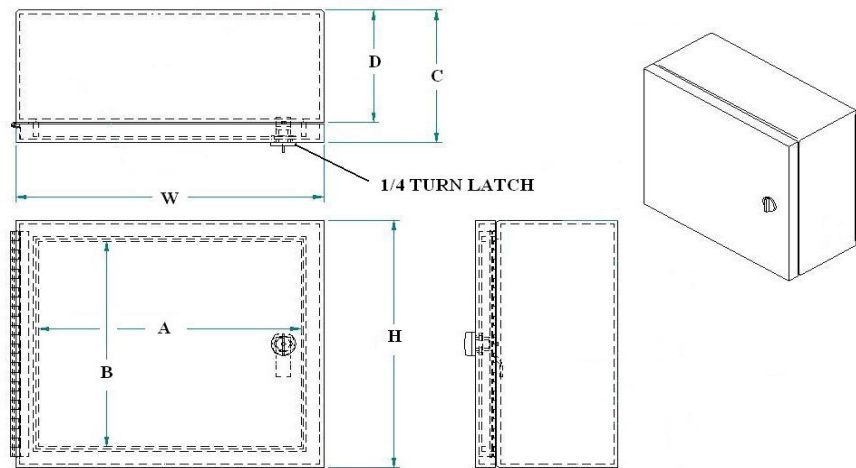

Shoe-Box (Style S) Construction

PATENT No 5,316,165 5,555,989 6,110,086

Flush Cover (Style F) Construction

PATENT No 5,316,165 5,555,989 6,110,086

MAT'L - PVC TYPE II UL94V-0
EPDM CLOSED CELL RUBBER/LITE UL GASKET
CONTINUOUS STAINLESS STEEL HINGE
