

Bases and feet

Bases

Features

- For installation of enclosures off the floor.

Technical Data

- Technical drawings can be found at www.haewa.com
- Sheet steel: 2 mm.
- 4 holes with Ø 9 mm underneath for floor mounting.
- 4 M8 press-fit nuts at the top for enclosure mounting.
- Distance of holes (S): when measuring 280 mm depth = 243 mm, from 330 mm depth = 293 mm.
- Surface: powder coated RAL 7022, slightly structured.

- Steel with improved treatment through iron phosphating and deionized water rinse, as well as environmentally-friendly powder paint coating.

Scope of Delivery

- 1 base

Suitable for

SN enclosure 1-door and SN enclosure 2-door

Note

The base must be drilled with the enclosure
