

Parker Hannifin Corporation
Industrial Hose Division

Series 7236 & SS123 – Discontinued *Refer to Series SS201*

To streamline the concrete placement/high pressure abrasive material handling product offering, Series 7236 and Series SS123 are being discontinued. The discontinuation is being implemented on a part-number-by-part-number basis, as current inventory is depleted. The discontinuation applies to both standard and non-standard part numbers within the respective product lines, and all quotations will be expired with the discontinuations.

Parker offers upgraded Series SS201 Goliath High Pressure Concrete, Grout and Plaster Placement Hose as the suggested replacement. Please refer to Product Advisory 2017.08.026 for Series SS201 updated product information.
