

# 18411

The *Suburban Sidewinder Sleeve™* is a protection sleeve used for bundling and wrapping hoses and cables. The reusable sleeve features Mil-Spec extreme Hook & Loop closure which allows installation without disconnecting hoses and can reduce labor time by 70%. The sleeve is available in a variety of different material and can be customized in order to meet the needs of any application.

## Typical Applications

The *18411 Sidewinder Sleeve* is an excellent choice for weld cable or welding hose that is often dragged across the floor. This material resists sparks and hot spall. The 18411 Sleeve is also used in Sub-sea maintenance where barnacles, sea life and salt water can damage hoses. Assembled long lengths available for this type of application. This product is also heavily used on off-shore oil rigs.

### 18411 Material Features

<b>Material:</b>	1000 Denier Cordura, Double Coated with Proprietary High FR Neoprene, Meets MIL-C-20696E, Type 2, Class 1
<b>Temperature Range:</b>	-40° to +250° F, Momentary Spot Heat up to 800° F
<b>Abrasion:</b>	Very good/ Excellent; Drag Abrasion from Welding Spall, Concrete Floor, Meets ISO 6945 Specifications
<b>Puncture/Tear:</b>	Excellent; resists puncture or tear
<b>UV Protection:</b>	Excellent; Best Barrier, Meets EN13758-1 max rating of 80 New
<b>Chemicals:</b>	Excellent; unaffected by water, petro chemicals, sea water, oils, mild solvents
<b>Wicking:</b>	Excellent; Non-wicking
<b>Welding Sparks/Spall</b>	Excellent; resists and sheds sparks and hot spall

Cylinder Rod Protection

**Full Roll is 150 Feet**
